Extremely Light And Slim

Adopt die-casting modular design, 16:9 ratio design, cabinet width only 57 mm, saving the installation space and edge covering cost.

57 mm Thick
6.5 Kg Weight

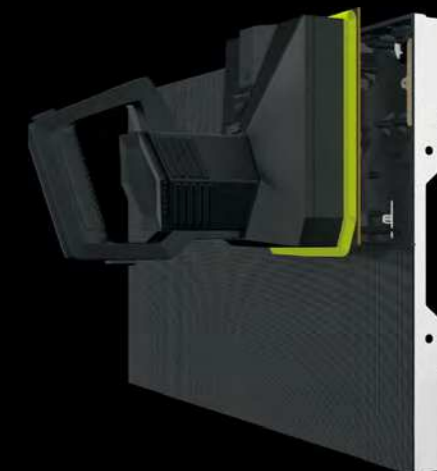

HD Seamless Display

HD Seamless Display, eliminate the visual seam, and enjoy the big, complete display effect.

Easy Maintenance

Available for installation on the wall, full front maintenance for the modules, receiving cards, and power suppliers, support multiple installation methods.

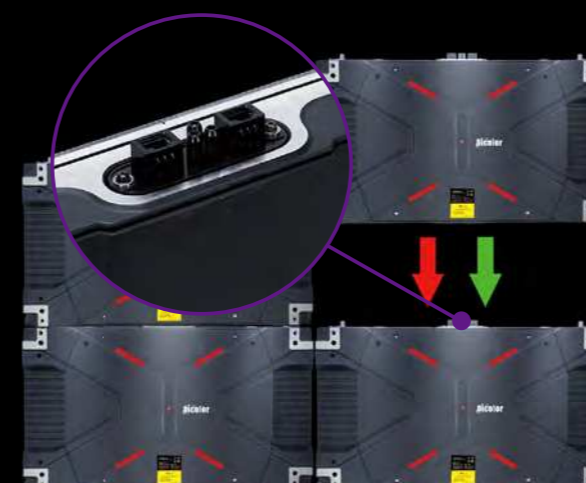

High Gray Level, High Refresh Rate, Perfect Display

Low brightness with high gray level and high refresh rate, stable dynamic display effect, no ripple, no flicker, the edge of the image is clear, and the visual experience is more comfortable.

Wireless Connection

Wireless connection technology and port backup function, reducing the wire connection between the cabinets, to save time and cost.

Dual-backup Design

Dual-backup design of the power and signal, making the fine pixel products more steady and reliable.
